EDUCATION

LaunchCode, LC101 Programming Course — 2022
Southwest Missouri State University, B.S. Computer Information Systems — 2004

PROJECT EXPERIENCE

DYWABOH — Realtor Portfolio Web Application
- Worked with a team of five people to create a web-based application that would allow realtors to save properties to a password-protected portfolio they could access anywhere.

WORK EXPERIENCE

Underwriting Assistant I, Arrowhead General Insurance Agency, Overland Park, KS, 2021 - Current
- Review and apply changes to policies within a high-demand, customer-facing environment.
- Bind and issue both new business and renewal business policies, while meeting strict time requirements.
- Provide any requested help to underwriting teammates in order to keep no one from falling behind.
- Helping to keep up the high-level standard of the business unit through regular meetings with management and continuing education.

Assistant Underwriter I, Philadelphia Insurance Companies, Leawood, KS, 2009 to 2020
- Review and apply changes to policies within a high-demand, production-oriented environment.
- Develop and maintain a knowledge base about multiple types of policies.
- Keep up to date on company, state, and federal rules and regulations.
- Pursue continuing education in insurance-related areas.
- Create standard operating procedure instructions for both rating and technological processes.
- Help co-workers with minor IT problems having to do with internal business systems.
- Broke down and set up workstations during PHLY's Independence Office expansion.
